The Coordination aims at the creation of a collecting system of information about functions listed above in order to provide relevant knowledge for the planning of individual territories. This system implies periodic analysis and mapping contained in useful documents are necessary to get a shared an participated planning on the Center's activities.

The Coordination represents a service agency linked to territories where its partners operate. It has several functions as planning projects, assuring social innovation, promoting research and development for the professional growth of its own members.

The peculiarity of the center is "thinking and operating in network" in order to create integrated networks in different territories. Center's task is also looking for funds at regional, national and European level to support its activities and services.

Its goal is the promotion of integrated services for individuals and communities valuing local human resources to create opportune social, economic and administrative conditions for the development of solidarity.

The Centre represents also a meeting point for people and youth because it informs about policies, rights, employment opportunities and cultural exchanges.

The working methodology is based on a democratic and participatory approach. The entire system of the Centre in fact, is founded on a perspective of sharing objectives and methods with other actors as government agencies, labour unions, third sector, etc.

COORDINATION OBJECTIVES

- 1) To share models, tools and innovative experiences in the field of services for individuals and communities for the development of local economy, also in an European perspective;
